

# Light Pollution is destroying our night...

...but YOU can make a difference.

Photo by Jim Richardson

## What is Light Pollution?

Most of us are familiar with air, water, and land pollution, but did you know that light can also be a pollutant?

The inappropriate or excessive use of artificial light – known as light pollution – can have serious environmental consequences for humans, wildlife, and our climate.

By joining IDA you can make a difference in protecting our Planet, saving billions of dollars in wasted energy, and connecting future generations with our legacy of starry skies.

## Light Pollution is Hurting:

WILDLIFE

HEALTH

PLANET

Light pollution affects everyone but it is reversible.
